

The Pope in Canada

The Pope in Canada

by Elizabeth Fisher

The Pope in Canada has been written for children aged 8 - 12 to enable them to prepare for and share in the excitement of the Pope's twelve-day tour. It is intended to be used before, during and after the trip. The book helps children prepare for the visit by providing biographical information on Pope John Paul II and historical information on the papacy and the Vatican. During the tour children will be able to follow the Pope's itinerary and learn about the cities he is going to visit. And after the trip, the book will remain as a record of this historic occasion.
